The European Label Forum

FINAT's European Label Forum 2019 the catalyst of mutual learning

FINAT's prime annual event, the European Label Forum, moves this year to the Scandic Copenhagen, 5-7 June.

The 'ELF', as it is familiarly known, brings together a broad spectrum of industry leaders across the value chain, from raw material suppliers to end users, to debate major strategic business topics and gain in-depth market knowledge from top international speakers.

5 - 7 June, Scandic Hotel, Copenhagen, Denmark

The European Label Forum provides the platform for owners, CEOs, sales and marketing managers, future leaders, vendor partners, knowledge providers and media editors, where they can:

- *Address the business challenges* of today and tomorrow,
- *Be inspired* by success stories,
- *Learn* from experts in different areas of expertise,
- *Share views and opinions* and *enter into dialogues* that will shape the future,
- *Gain experience* through exercise and engagement, and
- *Network* with peers across national borders.

The European Label Forum offers a unique source of knowledge, experience and networks key to the strategic success of label businesses in an international environment.

The European Label Forum 2019 - The Industry's Board Room Retreat in Copenhagen

The 5th edition of FINAT's annual European Label Forum will be held in Copenhagen, from 5-7 June. As in previous years, the programme covers a range of issues that have been or will soon be on board room agendas of labels and packaging solutions providers across Europe.

This year's "ELF" agenda includes a.o.:

- 3 keynote speeches
- 4 label market presentations
- 2 debates
- 3 parallel business learning sessions, with a total of 6 individual presentations
- 3 Business-to-Business & Members-to-Members break for networking

FINAT is proud to announce the 3 keynote speakers: **Hamish Taylor** who is a renowned expert on leadership, innovation and branding. He will explain that if we want a breakthrough at how we look at our internal or external customers, we need to look outside our current environment. **Fredrik Härén**, author and keynote speaker on Business, Creativity, Change and Global. Building upon the opening speaker's perspective of the internal and external B2B customer, he will entertain and inspire us how to turn the knowledge and information gained at the ELF2019 into concrete new business value. **Wijnand Jongen**, CEO Thuiswinkel.org and Chairman ECommerce Europe, will talk about the end of online shopping and labels and packaging as enablers in the changing retail landscape.

To underline the role of the European Label Forum as catalyst of discussion, debate and mutual learning, it will again feature **the Industry Debate**, plus a new feature this year: the **converter-only roundtables**. Guided dialogues with peer leaders from FINAT's volunteer workforce about strategic topics relevant

The European Label Forum

to the future of the European labels and narrow web packaging industry. The discussion will be based on an online member survey to be launched before the event.

The three parallel business learning streams will focus on:

1. The smart future of labels
2. The sustainability of filmic innovations
3. Connecting with our target audience

Each stream will feature two topics to choose from (participants are recommended to bring along a second in command not to miss out on any of the topics!).

Of course, the ELF programme will also feature the **FINAT Awards Ceremony**, the **Supplier Tabletop Exhibition**, various excursions for partners and a memorable evening at **Børsen**, the oldest (17th-century) stock exchange building worldwide, located in the centre of Copenhagen.

You will find all details about programme and registration in this brochure.

I look forward to welcoming you at our 2019 forum!

He is a strong believer in a holistic design approach to product innovation. This approach involves all stakeholders: customers, suppliers and science. This year, FINAT's programme committee has chosen 'smart', 'sustainable' and 'talent' as the three key words for this part of the programme. Not by coincidence, these three also feature in FINAT's 60th anniversary competition [#LABELicious](#).

09.00 The end of online shopping – the beginning of labels and packaging as enablers in the changing retail landscape?

Wijnand Jongen (NL) is the founder and CEO of the Dutch-commerce association [Thuiswinkel.org](https://thuiswinkel.org) and Chairman of the Executive Committee of Ecommerce Europe. He is the author of the

bestselling book 'The End of Online Shopping: the future of retail in a world that is always connected', which has meanwhile been published in 8 languages. As a global trendwatcher, Wijnand has seen the retail world running into stormy weather. Shoppers with a new shopping DNA are coming into stores, both on the high street

and online. The paradigm of New Retail is transforming the traditional retail world. Platforms like Amazon are becoming leading players in retail. Local retailers are faced with a prisoner's dilemma: do we join in or stay out of it? Without new business models, retailers and suppliers will start to fail. And what does the transition of retail mean for its value chain, where the players are assuming new roles and suppliers such as labels and package printing companies could become 'enablers' of new business models?

This will enable delegates to not only capture the takeaways from the sessions they could not attend, but also to actively engage in the dialogue about the three

key themes of this ELF: smart technology, material sustainability, and workforce development. With **#LABELicious**, as FINAT's 60th anniversary young talent competition reaching the final stage, emphasis will be on the question: how can we use the findings to redefine our industry's narrative to attract young potentials to join our industry's future workforce?

Re-creating your value proposition – turning ideas from the ELF 2019 into action

Fredrik Härén (SE), author and keynote speaker on Business, Creativity, Change and Global Business. He delivered 2,000

presentations in over 60 countries on 6 continents and is the author of several books, including “The Idea Book”. Fredrik’s definition of an idea is: $IDEA = P(K+I)$. An idea equals that a **P**erson takes his/her **K**nowledge and combines it with **I**nformation. It means that there is nothing totally new, everything is a combination of

previously known things in a new way. When we look at creativity like that we understand that there are infinite new ideas waiting to be revealed by combining the knowledge and the information we have access to. Building upon the opening speaker’s perspective of the internal and external B2B customer, Fredrik will entertain and inspire us how to turn the knowledge and information gained at the ELF 2019 into concrete new business value upon our return to the office.

Experience the present and the past in this historic tour. You will explore the roots of the Danish royal family and learn about the Viking origins.

Amalienborg Palace

The tour will start at Amalienborg Palace, the winter residency of the Danish queen. The Amalienborg complex consists of four palaces, built around an octagonal courtyard, in the centre of which stands the French sculptor J.F.J. Saly's equestrian statue of Frederik V, the founder of Amalienborg Palace and Frederiksstaden. Amalienborg became the royal residence after Christiansborg Palace burned down in the night between 26 and 27 February 1794.

Also famous is the Royal Life Guard which stands watch at Amalienborg and the other royal castles and palaces. The Life Guard has a change of watch ceremony at Amalienborg daily at noon. In addition, post replacement is conducted every two hours.

You will have the opportunity to enter the castle museum and see part of the royal collections. The royal collections have come into being over several centuries and contain objects of historical value which are attached to Her Majesty The Queen as both sovereign and private person. Large parts of the collections continue to be used by the Royal Danish House.

The Viking kings Harold Bluetooth (d. 985) and his son, Sweyn Forkbeard (d. 1014) conqueror of England and almost 40 kings and queens of Denmark are buried there.
